II. POLICY:

A. Use of Funds:

Allocations for Community Services will support the establishment of offices and programs for the design, development, and coordination of student volunteer work in local human and social service agencies, including hospitals, local government, prisons, social welfare agencies, and tutorial programs.

1. Projects shall be those developed and maintained by the campus; grants shall not be made to outside agencies. The Community Affairs Board of the Associated Students, UCSB, shall be considered the agency eligible to receive Community Services Project funds.

2. Funds may be provided for establishing offices including such items as salaries for office staff, supplies, and transportation of student volunteer workers. Conditions for hiring personnel shall be as follows:

   a. Personnel shall be hired only in an office administration or training capacity; funds will not be used to pay student-volunteers for their services.

   b. Personnel hired under Community Service Projects funds will be UCSB/University employees subject to standard University personnel procedures. Any alternative to this must be worked out with the approval of the Assistant Vice Chancellor, Staff Personnel.

3. All groups requesting such funds must meet Community Affairs Board funding request policies, which include a requirement of active participation in CAB for a specified number of quarters prior to a submittal for funds. These policies shall be established by the CAB Coordinating Board and will be on file in the CAB Office.

B. Funding Resources:

1. University Registration Fee Funds. Allocations from University Registration Fees, as determined by the Chancellor, will
be made to support Community Service Projects.

2. Matching Funds. For every two dollars of University Registration Fee Funds which are budgeted for Community Service Projects, one dollar will be provided from ASUCSB fees, alumni gifts, local foundations, private gifts, or other sources as available.

C. Project Evaluation:

Projects will be evaluated according to procedures and goals established each year by each project. In addition to service to the community, opportunities for student-volunteer work will also serve as criteria for evaluation. Staff and student personnel of the Community Service Projects will prepare a report each Fall which evaluates that year's program.
