ADJUSTING EXPENDITURES

I. PURPOSE AND SCOPE:

Direct costs or expenses are recorded in the University general ledger by means of initial payments (e.g., invoices, payrolls), by recharges from University service units, and by adjustments of expenditures (cost transfers). This procedure, in accordance with UCSB Policy 5110, provides guidelines for adjustments of expenditures, i.e., when charges recorded in the general ledger should have been reported in a different account/fund/sub/object code category.
